

BCC 4-16 Filwood Broadway (Stepnell, bid S25233B) - Shopfront Provisional Sums

QUOTE BY EMAIL TO ADAM WARNER (STEPNELL) BY 20 JULY 2026 L_SC Shop Front Systems package, D&B 2024, programme Nov 2026 - Jun 2027, retention 3%, LAD GBP1,358/wk, PI required. The Trade Bill itself instructs that the shopfronts are priced as **CONTRACTOR'S PROVISIONAL SUMS** - drawing 31551 is "illustrative purposes only" and the design will be finalised with the BCC High Street team and future tenants. No supplier costs exist; rates are medians from Fenster's supplier-rate register with documented uplifts for the U1.0 / solar-control / SR2 spec.

7 shopfront screens (~123 m²)	Manifestation + D&B design allowances	Provisional sums total ex VAT	VAT @20%	Total inc VAT
GBP 82,910.59	GBP 1,900.00	GBP 84,810.59	GBP 16,962.12	GBP 101,772.71

Provisional sum build-up

Ref	Size S.O.	Qty	Description	PS each	PS total ex VAT	Basis
ED-04	4930 x 3570	4	Lower shopfronts: Aluprof glazed screen, single outward entrance door (position varies per GA), interchangeable panel zone, integrated awning zone, signage + mesh ventilation zones, mill-finish spandrels, panels min 1.2m	GBP 11,519.17	GBP 46,076.68	Aplus glazed screen >6m² median GBP359.60/m² (n=42) + GBP45/m² U1.0/solar uplift + ironmongery/mesh extras + 15% margin + CW labour GBP150/m²
ED-05	5550 x 2970	2	Upper shopfronts: as ED-04 but DOUBLE outward-opening doors (>60 occupants per fire strategy)	GBP 11,004.63	GBP 22,009.26	As ED-04 + double-door ironmongery

ALLOW	-	1	Manifestation: two bands 850-1000 & 1400-1600mm to all clear glazing (drawing notes)	-	GBP 400.00	Allowance
ALLOW	-	1	D&B contractor's-design allowance: fabrication drawings, calcs, PI input; design development with BCC High Street team	-	GBP 1,500.00	Allowance

Specification captured

- Aluprof aluminium shopfront systems per External Materials Schedule 00700 Rev P00 p41; mill-finish spandrels; PPC doorsets; RAL colours per materials schedule.
- U-value 1.0 W/m²K; G-value 0.5-0.6 (solar control); safety glass BS EN 12600 / BS 6262; level thresholds; clear openings to ADB M4(2); Approved Docs M, K and B compliance; door heads above canopy datum are intentional.
- ED-06 core: LPS 1175 SR2 security, ≥Rw 32dB acoustic, access-controlled key fob (devices/connections by others - interface prep included).

Exclusions & notes

- Excluded: access control devices/readers/wiring, fire service box + dry riser installations, signage/vinyls, structural openings and builders work, attendance/scaffold (by others).
- These are PROVISIONAL SUMS per the Trade Bill's own instruction (Work Section A54) - not a fixed price; to be firmed when BCC finalise the shopfront design. Do not double-count against the measured items D/E/F.
- Cross-check: Mary's native engine prices the same screens at GBP75,251 supply-only, so the PS level is consistent once SR2/acoustic/solar premiums, margin and fitting labour are added.
- Next steps: Aluprof fabricator quote, SR2 doorset supplier quote, site visit (deemed to have been made per ITT).
