

Brocks Hill - Fenster Glazing Proposal and Pricing Review

Budget pricing review from a blank-rate contractor Bill of Quantities. The pack contained only the BoQ workbook (sheet "Windows & Doors") - no drawings, specification or supplier quotations - so every rate below is a Fenster budget fallback allowance. Material/system is not stated in the BoQ and is assumed to be PPC aluminium, double glazed. This must not be issued as a fixed tender price until supplier costs are obtained and the RFIs are resolved.

Fallback cost ex VAT	Code markup	Labour allowance	EPDM + mastic allowances	Budget sell ex VAT	VAT @20%	Budget inc VAT
GBP 74,355.48	GBP 24,850.00	GBP 7,190.00	GBP 4,813.34	GBP 111,208.82	GBP 22,241.76	GBP 133,450.58

Executive summary

Fenster are pricing the external windows and doors package for Brocks Hill from the main contractor's blank-rate BoQ. The measured scope is 37 frame units: 3 anti-fingertrap doorsets, 4 combined door-and-screen elements and 30 windows, plus two extra-over lines (power-assisted door operation, and an unclear E/O against EXD.E.02) that are held as TBC. The BoQ's "Quoted Value" checklist requires the price to include access, airtightness, EPDMs, flashings, manifestations, safety barriers, Climaguard, glass lifting, obscure glazing, solar control, door supports, internal flashings, panic escape gear and protection - only EPDM and mastic allowances are included so far, so the remaining inclusions need pricing or qualifying before issue.

Aggregated pricing schedule

Section	Ref	Description	Qty	Supplier/fallback cost	Code	Markup	Labour	Sell ex VAT	Notes
External doors	ED.0.02	CLASSROOM EXTERNAL DOOR - EXD.E.02; door element 1010 x 2110 mm, single anti-fingertrap door	1	GBP 2,514.70	SAD	GBP 1,150.00	GBP 250.00	GBP 3,914.70	Doors U 1.2 W/m²K per BoQ quoted-value list.
External doors	ED.0.10/14	GLAZED ENTRANCE DOORS - EXD.E.04; door element 1810 x 2110 mm, single anti-fingertrap door	2	GBP 9,013.08	SAD	GBP 2,300.00	GBP 500.00	GBP 11,813.08	1810 mm wide for a single leaf - confirm leaf + side panel or leaf-and-a-half (RFI 2).
External doors	E/O POWER ASSISTED	Extra-over: power assisted operation to glazed entrance door	1	TBC	TBC	TBC	TBC	TBC	Needs automatic-door supplier quote (operator, sensors, safety devices, commissioning).
Screens with doors	WIN.E.01	Door element 1610 x 2110 mm: fixed field + single anti-fingertrap door (DOOR EXD.E.02 INC E/W)	4	GBP 16,034.32	SADSAW	GBP 6,600.00	GBP 1,640.00	GBP 24,274.32	Combined door + screen element; code needs estimator review.
Screens with doors	E/O FOR EXD.E.02 (03/11/12/13)	Extra-over for EXD.E.02 (03/11/12/13)	4	TBC	TBC	TBC	TBC	TBC	BoQ wording unclear - appears to relate to the four WIN.E.01 door elements (RFI 3).
Windows	WIN.E.02	Window element 1800 x 2100 mm, two fixed fields and a top hung window	23	GBP 38,583.88	MAW	GBP 11,500.00	GBP 3,680.00	GBP 53,763.88	Split-pane budget rate (2 fixed + 1 opening). Windows U 1.1 W/m²K per BoQ.
Windows	WIN.E.04	Window element 1800 x 2400 mm, fixed field	4	GBP 5,616.00	MAW	GBP 2,000.00	GBP 640.00	GBP 8,256.00	
Windows	WIN.E.05	Window element 1000 x 2100 mm, fixed field	2	GBP 1,365.00	SAW	GBP 800.00	GBP 320.00	GBP 2,485.00	
Windows	WIN.E.06	Window element 1800 x 2100 mm, fixed field	1	GBP 1,228.50	MAW	GBP 500.00	GBP 160.00	GBP 1,888.50	
Allowances	EPDM	EPDM membrane allowance: 135.56 m² frame area @ GBP 25.00/m²	1	GBP 3,388.94	-	-	-	GBP 3,388.94	Required by BoQ quoted-value list.
Allowances	MASTIC	Mastic/sealant allowance: 284.9 lm perimeter @ GBP 5.00/m	1	GBP 1,424.40	-	-	-	GBP 1,424.40	External perimeter sealing only.

Pricing review and risk table

Tender Item	Supplier Reference	Covered	Risk / Query	Action Required
Aluminium windows WIN.E.02/04/05/06	None supplied	Partial	No supplier quote in the pack; rates are Fenster budget allowances only.	Send the window schedule to the aluminium supplier for a firm quote before issue.
Anti-fingertrap doors ED.0.02 / ED.0.10-14 / WIN.E.01	None supplied	Partial	Education anti-fingertrap spec; entrance door leaf configuration at 1810 mm unconfirmed.	Obtain door supplier quote; confirm configuration, ironmongery and panic gear.
E/O power assisted entrance door	None supplied	No	Automatic operator package has no rate - not priced.	Get automatic-door supplier quote (e.g. ACA) and add with Fenster markup.
E/O FOR EXD.E.02 (03/11/12/13) x4	BoQ line only	No	BoQ wording unclear; appears to relate to the four WIN.E.01 door elements.	Raise RFI with the main contractor before pricing.
Material/system/colour	BoQ only	Partial	BoQ never states frame material, system or colour. U-values given: windows 1.1, doors 1.2 W/m²K.	Adam to confirm intended system and PPC colour.
BoQ "Quoted Value" inclusions	BoQ quoted-value list	Partial	Access, airtightness, manifestations, safety barriers, Climaguard, glass lifting, obscure glazing, solar control, door supports, internal flashings, panic gear and protection are required but not priced; glass upgrades are outside the GBP 55/m² baseline.	Adam to price or qualify the remaining inclusions; glass spec upgrade pricing needed.

Installation/prelims/access	Tender pack only	Partial	Only product-code labour included; no preliminaries, access equipment, surveys or attendances.	Adam to add project prelim/access allowances before client issue.
-----------------------------	------------------	---------	--	---

Clarifications and assumptions

- Frames assumed PPC aluminium commercial spec, double glazed - the BoQ does not state material, system or colour.
- Windows priced to achieve U 1.1 W/m²K and doors 1.2 W/m²K as required by the BoQ quoted-value list.
- WIN.E.01 is priced as a combined element (fixed screen + single anti-fingertrap door, code SADSAW).
- ED.0.10/14 is priced as single-leaf doorsets at 1810 mm overall; configuration to be confirmed.
- Glass is priced at the standard double-glazed baseline; Climaguard, solar control and obscure glazing premiums are not included.
- EPDM and mastic allowances are calculated from the extracted frame areas/perimeters at Fenster standard rates.
- Excluded: power-assisted operation (TBC), E/O for EXD.E.02 (TBC), manifestations, safety barriers, glass lifting, door supports, internal flashings, panic gear, protection, access allowance, preliminaries, scaffold/MEWPs, builders work, fire stopping and making good.

RFIs / actions before issue

- RFI 1: Confirm frame material/system and PPC colour.
- RFI 2: Confirm configuration of the ED.0.10/14 glazed entrance doors at 1810 mm wide.
- RFI 3: Clarify what "E/O FOR EXD.E.02 (03/11/12/13)" covers.
- RFI 4: Confirm the power-assisted door requirement and obtain an automatic-door supplier quote.
- RFI 5: Confirm glass build-ups for Climaguard/solar control/obscure locations and responsibility for safety barriers/manifestations.
- RFI 6: Request elevations/drawings and the specification - only the BoQ workbook was supplied.
- Action: send the window/door schedule to the aluminium supplier for a firm quote before final issue.
