## Assumptions

| # | Assumption                                                                                                                                     |
|---|------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Colour PPC RAL 7016(M) Anthracite Grey per supplier quotes; RFQ stated RAL 7016 for doors.                                                     |
| 2 | Bellview Grand Total Net £33,723.08 (after 15% discount) used as door cost basis.                                                              |
| 3 | Supplier quotes are supply-only; additional delivery charges may apply per BSW terms.                                                          |
| 4 | Dimensions subject to final site survey; supplier sizes match architect S/O sizes on drawing 5006 P04.                                         |
| 5 | Labour allowances per Fenster product-code table; quantity kept separate from code.                                                            |
| 6 | Doubles with fixed fields (D0.03/D0.04/D0.05) coded DAD as no combined double-door code exists; fixed field cost is inside the supplier price. |

## Exclusions

| # | Exclusion                                                                 |
|---|---------------------------------------------------------------------------|
| 1 | W0.01 steel fire-rated (30 min) window - amended from aluminium 31/03/26. |
| 2 | W2.01-W2.06 fixed rooflights (6 nr, 730 x 730 mm) - not quoted.           |
| 3 | Internal doors D0.21-D0.40 and D1.21-D1.40 - fit-out package by others.   |

| # | Exclusion                                                                                                                                  |
|---|--------------------------------------------------------------------------------------------------------------------------------------------|
| 4 | Trickle vents (excluded in RFQ).                                                                                                           |
| 5 | Automatic/electronic locking, mag locks, automated controls, pedestrian barriers/stops, panic hardware, stainless/INOX finishes (per RFQ). |
| 6 | Builders work, making good, structural calcs, fire stopping, scaffold/access, wiring and interfaces.                                       |
| 7 | VAT treatment to be confirmed (figures ex VAT).                                                                                            |

## RFIs and Actions

| # | RFI / Action                                                                                    | Severity |
|---|-------------------------------------------------------------------------------------------------|----------|
| 1 | Confirm PAS24 compliance in writing from BSW and Bellview.                                      | Critical |
| 2 | Confirm Sheerline Prestige / SMA Smart Wall accepted as equal approved to Senior SPW600/SPW501. | Critical |
| 3 | Confirm whether W2.01-W2.06 rooflights are in the Fenster package; obtain quote if so.          | Critical |
| 4 | Confirm procurement route for W0.01 steel FR window.                                            | Warning  |
| 5 | Confirm spandrel build-up (Lacobel vs sandwich panel/frit + insulation spec).                   | Warning  |
| 6 | Confirm D0.02 configuration (640 mm door with spandrel and fixed upper panel).                  | Warning  |
| 7 | Confirm delivery, access, prelims, programme; quotes valid 30 days from 26/06/2026.             | Warning  |
| 8 | Confirm U-value/Part L target (not stated in RFQ).                                              | Warning  |
